Enabling the Internet Explorer 7 Links Toolbar

In the latest release of the Microsoft Internet Explorer (IE7), the Links toolbar (Figure 1, 1) with links to many TU websites is not enabled by default after Internet Explorer 7 is installed. This document will show you how to turn the Links toolbar back on by following the directions below.

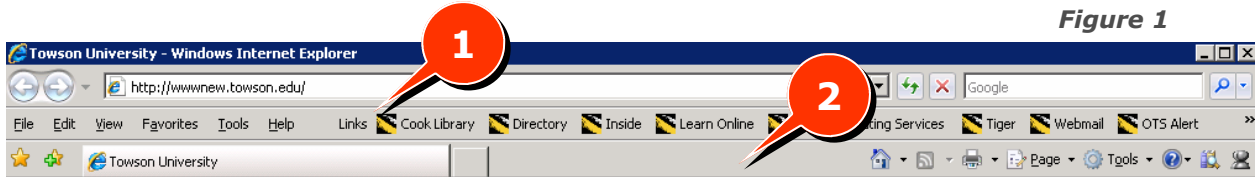

Figure 1

Unlocking the Toolbars and Enabling the Links Toolbar

1. Right-click on a blank space in the IE7 toolbar area (Figure 1, 2) and a Toolbar shortcut menu displays (Figure 2).
2. In the Toolbar shortcut menu, select **Lock the Toolbars** (Figure 2, 1) to deselect the option. The toolbar area is now unlocked and can be customized.
3. Right-click on the same blank space in the IE7 toolbar area and verify that the checkmark adjacent to **Lock the Toolbars** does NOT appear (Figure 2, 1).
4. Right-click a third time on the same blank space in the IE7 toolbar area and select **Links** to enable the Links Toolbar. A checkmark next to Links will appear (Figure 3, 1).

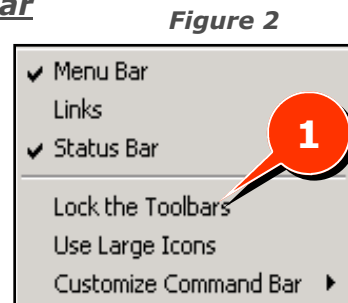

Figure 2

Align the Links Toolbar

Once the Links toolbar has been enabled, you can align or move the Links toolbar.

1. On the right of the IE7 toolbars, locate the thin grey vertical border to the left of the Links toolbar label (Figure 4, 1).
2. Press and hold your left mouse button to drag the Links toolbar toward the center of the IE7 browser window. Release the mouse button once the Links toolbar is located where you want it.

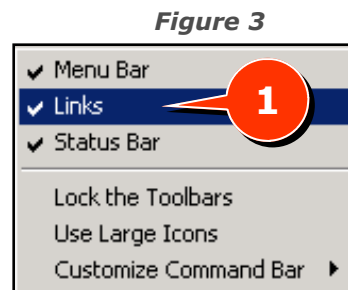

Figure 3

Figure 4

Relocking the Toolbars

1. Right-click on a blank space in the IE7 toolbar area and select **Lock the Toolbars** from the shortcut menu. The Toolbar area is now locked again.
2. Right-click on the same blank space in the IE7 toolbar area and verify that the checkmark adjacent to **Lock the Toolbars** appears (Figure 5, 1).
