

Towson University VPN Installation Guide for Mac

Requirements:

Administrator rights are needed to install the VPN client. To obtain administrator rights on university computers, contact the Help Center 410-704-5151, option 2+2+2.

Step 1: Open Safari.

Step 2: In the URL address bar of your browser, type <https://vpnc.towson.edu/>

Note: Don't forget to add the **S** after http in the address above.

Select Continue at the "WARNING! Connecting to this network..." popup window.

Step 3: At the Log in prompt, type TowsonU username and password, and then select Login.
(Fig. 1)

Step 4: A security Certificate will popup (Fig. 2).
Select Trust.

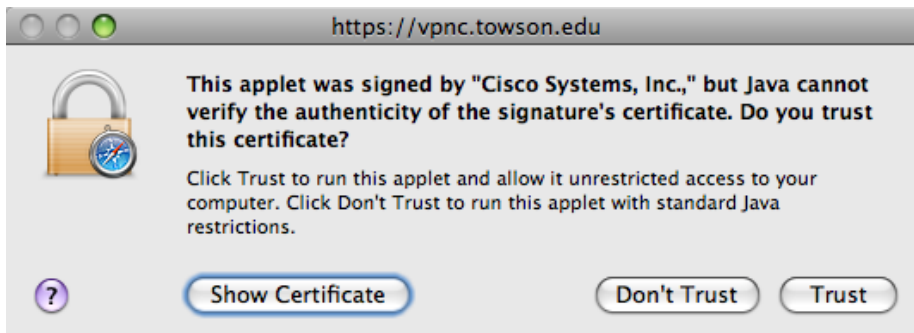

Figure 2

Step 5: Type TowsonU Username and Password when prompted.

Step 6: VPN will connect; the connection can be connected/disconnected from the lock icon in menu bar as shown below (VPN client in red circle).
