

## **EARLY MOVE IN PARKING INFORMATION**

According to information provided by Residence Life, you have been given approval to move-in to your housing early. In order to assist with this process and to maintain safe and efficient flow of traffic on campus, please ensure you and others with a vehicle who may be assisting you follow the guidelines below.

- Designated “Move-in” spaces will be located near each resident hall.
- Vehicles may only be parked in “Move-in” spaces for a maximum of 30 minutes. After this time vehicles must be moved to a legal commuter or resident space.
- “Move-in” permits may only be used for one day and are only valid on the day you are assigned to move-in.
- When parked in a Commuter or Resident space during this period, the permit below with the arrival date circled or your TU permit must be displayed.
- All vehicles must be parked in a legal space.
- Vehicles may not be parked in fire lanes, on roads, sidewalks, grass, etc., even for a few minutes.
- Only vehicles displaying state issued handicapped license plates or permits may be parked in handicapped spaces. The permit below with arrival date circled must also be displayed.
- If you do not have a valid 2009 annual or semester permit you must either purchase your new 2010 permit (if eligible) or obtain a “Visitor” permit from a pay station for the days not covered by the “Early Move-in” parking permit.

Please see the parking website [parking.towson.edu](http://parking.towson.edu) or call 410-704-PARK if you have questions or need additional information.
