

Internship Opportunity at Johns Hopkins University

The Department of Cardiology at Johns Hopkins Bayview Medical Center is currently seeking motivated students who would like to gain experience working with clinical research trials investigating the effects of diet and exercise on cardiovascular outcomes. You will observe and take an active role in VO₂ Exercise Stress Testing, Echocardiograms, Muscle Strength Testing, Vascular Reactivity/Stiffness Testing, DEXA Scans, MRIs, Dietary Assessments, Data Interpretation and Management, as well as lead exercise intervention sessions.
